Pogung Rejo

I am a Software Engineering student at Universitas Gadjah Mada with a strong passion for Front-End Development. I am dedicated to continuously learning and improving my technical skills to build user-friendly and visually appealing web applications. My goal is to create innovative digital solutions that enhance user experiences.

Education Level

Universitas Gadjah Mada - Indonesia

Aug 2024 -

Bachelor of Software Engineer, 3.83/3.83

SMA Negeri 2 Yogyakarta - Yogyakarta

Aug 2021 - May 2024

Senior High School, MIPA

Skills, Achievements & Other Experience

- Smada Research Competition (SRC)** (2023): Smada Research Competition is an annual event held by SMA Negeri 2 Yogyakarta, showcasing research projects conducted by students. This event aims to promote a research culture among students and provide them with a platform to present their innovations and scientific findings. As part of the Logistics Division, I was responsible for preparing all the exhibition boards and setting up decorations at the venue. My role ensured that the exhibition area was well-organized and visually appealing, creating a comfortable and engaging experience for both participants and visitors.
- Smada Social Day (SSD)** (2023): Smada Social Day (SSD) is an annual event by SMA Negeri 2 Yogyakarta that distributes donations to those in need. It promotes social awareness and solidarity among students. As part of the DDD Division, I designed lanyards for field operations, ensuring proper identification and smooth coordination during the event.
- KOMATIK** (2025): I am a member of KOMATIK (Komunitas Mahasiswa TIK) UGM, specifically in the Software Research Division (SRD). SRD focuses on software development using various programming languages. We hold weekly learning sessions to enhance the technical skills of both members and staff.
